PROPOSAL DECK ONE:

INTRODUCING

**ROYAL SCHOOL OF
EDUCATIONAL THERAPY FOUNDATION.**

Core Focus – Partnership | Fundraising & Commercialization Program

ABOUT US

The Royal School of Educational Therapy Foundation (RSETF) is a specialized institution dedicated to empowering children with special needs through therapy-based education, talent development, and skill training. Over the years, the foundation has helped children with diverse learning challenges identify their talents in technology, creativity, and vocational fields.

To scale its impact and reach more beneficiaries, RSETF aims to build sustainable fundraising channels, strengthen corporate partnerships, and create commercialization opportunities that support both the school and the foundation's wider community programs.

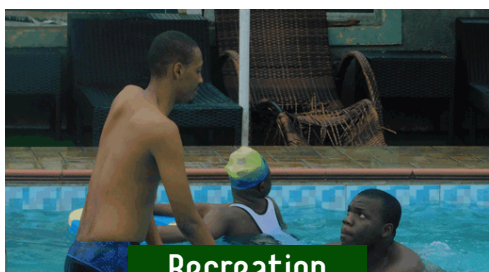

Problem STATEMENT

Various sources point at Africa alone having more than 15% children fall under the category of special needs. With over 20m+ children in Africa reported to be under special needs, you would expect that the infrastructures for supporting these children are in abundance, nevertheless that is not the case, as the infrastructure for supporting these children are always not readily available.

Vision

To unlock a future where all special needs children across Africa are empowered to express themselves confidently and access the opportunities they need to excel.

Sewing Class

Our Operating Structures

Royal School of Educational Therapy Foundation (RSETF) delivers impact through five integrated structures designed to educate, care for, and amplify children with special needs across Africa.

1. Physical Learning Centres (RSETF Foundation Schools)

Purpose-built learning environments that deliver structured, inclusive education for children with special needs. Our centres combine tailored curricula, therapeutic support, and safe learning spaces that help every child learn, grow, and thrive.

2. Media, Film & Content Production

We use storytelling as a tool for advocacy.

Through films, documentaries, and digital content, RSETF raises awareness, changes perceptions, and amplifies the voices and talents of children with special needs across Africa.

3. Special Needs Health Camps

Monthly community-based health camps providing essential medical care for children with special needs.

These camps offer screenings, basic treatment, health education, and referrals—ensuring early intervention and ongoing care.

4. Online Care & Learning Platform

A digital platform designed to extend RSETF's reach beyond physical locations.

The platform enables remote education, virtual medical consultations, caregiver guidance, and continuous support for special needs children across Africa.

5. Special Needs Tech-Start Program

A digital inclusion initiative that equips children with special needs with computers, digital skills, and access to tech scholarships.

The program prepares beneficiaries for future opportunities in technology, education, and the modern workforce.

Partnerships

Partnership Opportunities

To ensure long-term sustainability and scale the impact of our programs, RSETF Foundation offers multiple partnership tiers that allow individuals, organizations, and institutions to support children with special needs in meaningful and measurable ways.

1. Community Donor Partner

A grassroots impact community for individuals who want to make a consistent difference. Community Donor Partners contribute a minimum of \$20 monthly, directly supporting:

- Scholarships for children with special needs
- Learning materials and assistive tools
- Routine health checks and care support

Collective giving. Continuous impact. One child at a time.

2. Corporate Impact Partner

Designed for organizations committed to social impact and inclusion.

Corporate Impact Partners support:

- **Special Needs Health Camps** (medical screenings, care, and early intervention)

● **Special Needs Tech-Start Program** through laptop donations, digital skills training, and tech scholarships
This partnership enables companies to deliver measurable CSR outcomes while transforming lives through education, health, and digital inclusion.

3. Grant Funding Partner

For foundations, development agencies, and large-scale enterprises seeking high-impact, scalable interventions.

Grant Funding Partners provide program or institutional grants that support:

- Expansion of RSETF Foundation Schools
- Online Care & Learning Platform
- Health, education, and technology initiatives for children with special needs

Partners receive structured reporting, impact metrics, and accountability aligned with global development standards.

4. Media & Creative Partner

A strategic partnership for storytellers, creatives, and media organizations.

Media & Creative Partners collaborate with RSETF to:

- Amplify the voices and stories of children with special needs across Africa
- Produce films, documentaries, and digital content for awareness and advocacy
- Position inclusion, dignity, and opportunity at the center of public discourse

Changing narratives. Driving empathy. Inspiring action
